### Is Burdensome Taxation Threatening Your Retirement?

**Did you know** as much as 85% of Social Security benefits could be subject to income taxes?

According to the Revenue Reconciliation Act of 1993, if your earnings are above certain limits, your Social Security benefits may be taxed at a higher rate.

**Did you know** that with rampant unemployment and an ever growing deficit, the tax base that funds our government is insufficient?

Our current entitlement obligations, (Social Security, Medicare, Medicaid, etc.), are underfunded. Some are on the verge of insolvency!

### Congress needs to find money to fund these responsibilities

...and your savings could just be the place they go for help!

**Did you know** that when the "Bush Tax Cuts" end on 12/31/10, nearly **everyone's taxes will go up?**

In fact, some taxes will go up significantly. One tax in particular, currently at zero, could go as high as 55% for some people. Will you, or someone you care about, be one of them?

**Did you know** that there's even talk among legislators to amend the RMD6, (Required Minimum Distributions) that retirees must take from IRA'S, 401k's etc? They could go up to increase tax revenues for the government. In short, as bad as things are for retirees, with the stroke of a pen, things can get even worse! If you don't have a plan for your money, the government does.

### What You Don't Know Can Hurt You!

Simply put, your retirement is at risk.

It's *imperative* that you learn what your options are to protect and shield your assets while creating guaranteed income for life by coming to one of **our Eye of the Storm seminars**, or by meeting with **Greg Palka** for a **complimentary 60-90 minute consultation**.
