Thank you for not keeping us a secret!

Is Market Instability Causing You Harm?

Did you know that for many people whose portfolios are tied to market performance, a drop in the stock market can signal financial disaster?

Do you remember what happened to the stock market after the terrorist attack on September, 11th? There was a sudden and dramatic drop to the tune of a 50% loss. It took *years* to recover from that catastrophe. Again, in 2008, the market once again, took a rapid turn for the worse. This time, the decline was precipitated by massive failures in the banking industry. Once again, many people, through no fault of their own, lost 30-50% of their life's savings in a very short period of time! Were you one of them?

Is Rampant Economic Uncertainty Causing You Sleepless Nights?

It can be scary to think what factors, (and how many there are), are outside of your control and can decimate your retirement account! The market can be a volatile place, filled with uncertainty and risk. It can take years to recover from a sudden or dramatic loss

There is a Better Way

What if...in spite of the stock market; good, bad, or ugly, your assets are protected and shielded? **If the market goes up, you make money. If the market stagnates, you still make money**, (albeit, not as much). **If the market goes down, you don't lose a cent!** (When things are really bad, it's not just about return on your principle, but return of your principle, isn't it?)

What You Don't Know Can Hurt You!

Simply put, your retirement is at risk.

It's *imperative* that you learn what your options are to protect and shield your assets while creating guaranteed income for life by coming to one of **our Eye of the Storm seminars**, or by meeting with **Greg Palka** for a **complimentary 60-90 minute consultation**.

Our seminars and consultations are designed to *help people*, especially retirees like you, to learn strategies to *win* in spite of the economic storms and challenges you're caught in, to *get your questions answered*, and to *have fun* in a relaxed environment. The information provided will help you assess where you are now and what steps need to be taken to **secure your future**.
