Is Rampant Economic Uncertainty Causing You Sleepless Nights?

Did you know that economists and market experts are telling us things are as bad as they were during **the great depression?**

"Whatever yardstick you care to choose – share-price moves, the rates at which banks lend to each other, measures of volatility – we are now in a similar position to 2008.."

(Edmund Conway, Telegraph columnist)

Many retirees are drowning in the seas of economic uncertainty, market instability, and burdensome taxation. They simply are not safe!

Do You Believe That Market Instability is Harming You?

Did you know that in the 45 day period between June 19, 2010, and August 3rd, 2010, the stock market experienced 45 days of 100 point swings? That's a lot of volatility!

Do you know that historically, it takes longer for the market to bounce back than it does for it to tank. If your money is in the market, you have to be asking yourself, *"How safe is my retirement?"*

Do you know that unemployment levels are at historic levels? The repercussions of this will send ripple effects throughout the economy that can put your hard-earned savings at risk.

There is a Better Way

What if...in spite of the stock market; good, bad, or ugly, your assets are protected and shielded? **If the market goes up, you make money. If the market stagnates, you still make money**, (albeit, not as much). **If the market goes down, you don't lose a cent!** (When things are really bad, it's not just about return on your principle, but return of your principle, isn't it?)

What You Don't Know Can Hurt You!

Simply put, your retirement is at risk.

It's *imperative* that you learn what your options are to protect and shield your assets while creating guaranteed income for life by coming to one of **our Eye of the Storm seminars**, or by meeting with **Greg Palka** for a **complimentary 60-90 minute consultation**.

Our seminars and consultations are designed to *help people*, especially retirees like you, to learn strategies to *win* in spite of the economic storms and challenges you're caught in, to *get your questions answered*, and to *have fun* in a relaxed environment. The information provided will help you assess where you are now and what steps need to be taken to **secure your future**.
