Are You Worried About Being A Burden to Others?

Did you know that nearly 75% of people *do* need some type of long term care?

Denial doesn't change reality. Odds are, you, and/or your spouse, (if you're married), will be one of them.

Did you know that relying on family members to take care of you when you're unable to care for yourself can have a devastating impact on their careers, finances, and well-being?

Did you know that about half of the companies providing long term care insurance are in trouble?

As health care costs continue to rise and as medical advances enable us to keep sick people alive for longer periods of time, look for rate increases if you have a plan like this in place .

You May Not Qualify for Medicaid. What Then?

Did you know that, without proper planning, you, (and your spouse if you're married), have to be *impoverished* before Medicaid steps in to help with long term care expenses?

You'll be forced to liquidate nearly everything of value before you're eligible for help from Uncle Sam.

The Bottom Line, is Your Retirement May Not Be Safe!

There is a Better Way

What if...in spite of the the stock market; good, bad, or ugly, your assets are protected and shielded? **If the market goes up, you make money. If the market stagnates, you still make money**, (albeit, not as much). **If the market goes down, you don't lose a cent!** (When things are really bad, it's not just about return on your principle, but return of your principle, isn't it?)

What You Don't Know Can Hurt You!

Simply put, your retirement is at risk.

It's *imperative* that you learn what your options are to protect and shield your assets while creating guaranteed income for life by coming to one of **our Eye of the Storm seminars**, or by meeting with **Greg Palka** for a **complimentary 60-90 minute consultation**.

Our seminars and consultations are designed to *help people*, especially retirees like you, to learn strategies to *win* in spite of the economic storms and challenges you're caught in, to *get your questions answered*, and to *have fun* in a relaxed environment. The information provided will help you assess where you are now and what steps need to be taken to **secure your future**.
